

**Director's Epistle**

**Dear Readers,**  
 We are very much satisfied by the budget and we feel the union budget was well focused and will accelerate pace of infrastructure development in the country with 70,000 Cr been allocated, tax free bonds for rail, roads & irrigation project along with pushing PPP model for infrastructure development by the Government.  
 The announcement of 5 new power plants, educational institutes in 3 states and hospitals in 6 states will all boost the infra industry in the country. We feel the current budget is a very balance budget with focusing on growth in the country in time to come. The economy is about to change gears and bound to expand more than the expectations of people.

Thanks & Regards,  
 Arvind Nanda & Gautam Suri  
 Founder Directors - Interarch Building Products

**Interesting Statistics: Telangana coming up with additional 1000 acres of land seeking investment from Aerospace companies in 2015**

Telangana, the youngest state in India, is expanding its existing aerospace special economic zone near Hyderabad international airport with an addition of 1,000 acres. The Hyderabad Aerospace SEZ is the first exclusive park for aerospace companies in the country. Telangana government has identified 1,000 acres additional land to accommodate new industries.

Under the new policy, all mega projects (with investment of Rs 200 crore) will get clearance within 15 days. The government has also promised that it would take action against the concerned departments if they fail to clear the proposals in the stipulated time frame.

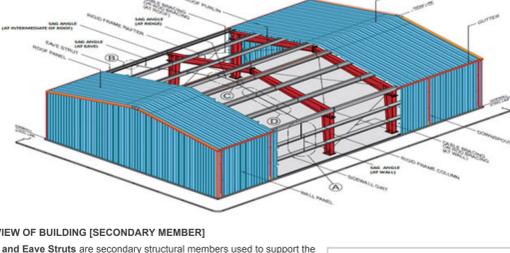

**Delivering Value: Completes more than 6000 Pre-Engineered Buildings**

Interarch India's leading Metal Building and Steel Construction company has engineered, Manufactured and Delivered more than 6000 Pre-Engineered Buildings across India. At Interarch we work towards providing customer satisfaction through best in class engineering, Zero accident, Quality, Safety & on-line delivery of Project. Milestone Projects Pre-Engineered building delivered by Interarch:

- 33 M Clear Height Buildings for Asian Paints Ltd Buildings
- 99.7 M Clear Span Building for Ultratech Cement Ltd
- 8th Largest Airport Terminal Buildings in Asia for IGIA Airport Terminal 3
- 125 MT crane installed for Bestal Engineering Works
- G+6 Multi Storey Building for Hindustan Unilever Ltd
- First G+2 office buildings for Reliance Industries Ltd
- Heavy Mezzanine load buildings with loading up to 5 MT for Fork lift movement
- 800 M long building for Tristar Infrastructure Ltd
- 33 M Bridge Girder for Delhi Metro Rail Corporation Ltd
- More than 1000 Petrol Pump Canopies for various Oil companies

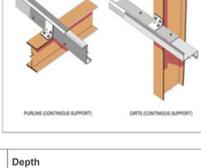

**Know your Interarch Pre-Engineered buildings: Secondary Framings**

**ISOMETRIC VIEW OF BUILDING [SECONDARY MEMBER]**  
**Purlins, Girts and Eave Struts** are secondary structural members used to support the wall and roof panel. Purlins are used on the roof. Girt are used on the walls and eave struts are used at the intersection of the sidewall and roof.

Secondary members have two other functions: they act as struts that help in resisting part of the longitudinal loads that are applied on the building such as wind and earthquake loads, and they provide lateral bracing to the compression flange of the main frame members thereby increasing their capacity.

Purlins, girts and eave struts are available in two standard surface finishes and four standard thicknesses as shown in below table:

Standard Material	Available Thickness in (mm)	Depth
Surface Finish	'Z' and 'C' Purlin/Girt	(mm)
Red Oxide	1.6, 2.0, 2.5, 3.0	200/250/300
Pre-Galvanized	1.6, 2.0, 2.5, 3.0	200/250/300

Purlins, Girts and Eave struts are bolted with the clips to the primary member like columns and rafters and to each other at laps by means of machine bolts conforming to ASTM A307 M.

Roof and wall panels are laid perpendicular to the roof purlins and wall girts, respectively, and fastening to them by means of the self-drilling fasteners

**Interarch Light Gauge Framing System for Residential Buildings:**

LGFS is ideal solution for residential buildings as it can be customized to meet specific requirement i.e. shape, size and design and it has longer life span and easier to maintain. It is also an ideal solutions to build houses in hilly areas.

**Customer Testimony**

This is to certify that Interarch Building Products Pvt. Ltd. has successfully completed the work of design, manufacture, supply and erection of Pre-Engineered Building of our manufacturing building. We appreciate the efforts put in totality by their team at all stages, resources deployed and cooperation extended for the satisfactory and timely completion of this project. We wish them success for all their coming future assignments.

**Interarch delivered a project for Jaguar Cars Showroom and workshop facility in Raipur**

Interarch a pioneer in Pre-Engineered Steel Construction Solution provider in India with integrated facilities for design, manufacture, logistics, and supply, and project execution capabilities for pre-engineered steel buildings delivered a project Balajeje Automotives Private limited (Dealers of Jaguar Land Rover Cars) in Chhattisgarh.

**Project Details:**

Project Name	Balajeje Automotive Pvt. Ltd.	
Project Location	Raipur, Chhattisgarh	
Number of Buildings	2	
Building Details	Showroom Building	Workshop Building
Project Area	1985 Sq. M	
Width	35.243 M	23.633 M
Length	51.97 M	43.28 M
Height	9.25 M	5.8 M

**New Projects Wins**

- TATA Advanced Systems Ltd, Andhra Pradesh
- Berger Becker Coating Pvt. Ltd, Goa
- Asian Paints Ltd, Gujarat
- Birla White Cement Ltd, Rajasthan
- Sumeet Logistics, Maharashtra

**New Projects Completed**

- TATA Motors Ltd, Maharashtra
- Central India Logistics, Maharashtra
- Ambuja Cement Ltd, Chhattisgarh
- Lupin Ltd, Goa
- Hindustan Unilever Ltd, Punjab

**Which is the highest clear height building executed by Interarch?**

Option b is the correct answer - 33 M  
 Interarch has delivered 33 M clear height building for Asian Paints Ltd in Maharashtra

**Interarch Participated in Nepal Buildcon Exhibition 2015 in Kathmandu:**

**Upcoming Events & Participation By Interarch:**

- India Steel Expo - Mumbai, 16th- 18th April' 2015
- Roof India Exhibition- Mumbai, 22nd- 24th May' 2015
