

Director's Epistle

Arvind Nanda
 Founder Director & CEO

Gautam Suri
 Founder Director & CTO

This edition of newsletter will cover project highlights of one of our flagship projects won in 2013 from Hindustan Unilever Ltd. which now almost on the completion stage. Interarch bagged this project in 2013 for designing, manufacturing and executing a G+6 steel building which is one of the groundbreaking projects for Interarch in the recent past.

We hope this issue of the Newsletter is informative for you. Please feel free to mail us your valuable feedback and suggestions on our newsletter in order to help us improve.

Thanks & Regards,
 Arvind Nanda & Gautam Suri
 Founder Directors - Interarch Building Products

New Innovative Possibilities using Interarch Infrastructure Structural Steel by Mr. Sanjay Modi, CEO Interarch Infrastructure

Steel offers many advantages to the bridge builder, not only from the material itself but also from its architectural possibilities. Bridges, flyovers and FOBs in steel allow flexibility to build large span structures in a short period of time. The bridges of today show the advancements in steel technology and design which have occurred over the last century. From the modest spans to the exciting cable stayed and suspension bridges, steel has a wide appeal.

- Benefits of Interarch Bridge Structures**
- Sleek, strong and long span structures with lighter foundation
 - Durable structures, longer life and improved life cycle performance
 - Better seismic performance
 - Environment friendly structures
 - Faster construction
 - Easy construction, maintenance and up-gradation
 - Steel has high tensile strength, with so small section can fully meet the structural requirement
 - Installation of steel bridges in the field more quickly than with concrete bridges and require a relatively small space at the site of construction.

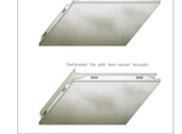

Interarch's Innovation in Steel

Interarch, India's leading turnkey Pre-Engineered Metal Building & Structural Steel company commences operation in India in 1984. Interarch Building Products has a rich legacy spanning 3 decades. It has grown from a daringly innovative metal interior products manufacturer to the leading turnkey structural steel and metal building company in India.

In 1986 Interarch introduces window coverings in India, under the TRAC brand name. The TRAC® range of metal and Glass Reinforced Gypsum ceilings are specially designed for the Indian market, taking into account the building design, construction practices and weather conditions.

TRAC® ceiling is available for all needs. Ceilings systems are available in gypsum, coated steel and coated aluminium. TRAC® ceilings are available in a wide range of panel types for including lineal ceilings, clip-in or lay-in tile and plank ceilings, and C-grid (band raster) ceilings. Metal ceilings are manufactured in aluminium and steel with coil coated or powder coated finishes. All metal ceilings are available in a perforated version for sound absorption, and are designed to integrate with standard lighting fixtures, air diffusers, and partitions.

TRAC® ceilings are suitable for use in interior and exterior areas in offices, hospitals, schools, restaurants, shops, hotels, airports and other buildings. TRAC® ceilings are also suitable for industrial use and are especially suited for extreme environment inside the factory buildings.

Customer Testimonial

M/S Interarch Building Products Ltd. constructed a shed of 6000 Sq. ft. for us for our factory at Niwari, Dist. Tikargarh (M.P.). We found their approach and working very professional right from initiation of enquiry to final completion of the project. They were very prompt and time taken in the execution of this project. I feel very confident in them to give them all future projects from our company in coming future.

Project Spotlight - HUL

Project Name	Hindustan Unilever Limited	
Project Location	Pondicherry	
Building Usage	Warehouse for PEB	Process unit for Multi-storey building
Area	PEB Building - 1508 Sq. M	G+6 Building - 432 Sq. M
Length	58 M	36 M
Width	26 M Clear	12 M
Height	9 M	31 M
Mezzanine	-	G+6 Structure

Did you Know

In 1999 Interarch became one of the first Indian manufacturer to receive the ISO 9001 Certification by UL Inc. USA, and now it has ISO 9001:2008 Certified Plants with Stringent Quality Systems and process control.

Tips for Workers Working at Site During Summers

- Worker should take the following steps to protect themselves from heat stress. Workers should avoid exposure to extreme heat, sun exposure, and high humidity when possible. When these exposures cannot be avoided, workers should take the following steps to prevent heat stress:
- Wear light-colored, loose-fitting, breathable clothing such as cotton.
 - Avoid non-breathing synthetic clothing.
 - Gradually build up to heavy work.
 - Schedule heavy work during the coolest parts of day.
 - Take more breaks in extreme heat and humidity.
 - o Take breaks in the shade or a cool area when possible.
 - Drink water frequently. Drink enough water that you never become thirsty. Approximately 1 cup every 15-20 minutes.
 - Avoid alcohol, and drinks with large amounts of caffeine or sugar.
 - Be aware that protective clothing or personal protective equipment may increase the risk of heat stress.
 - Monitor your physical condition and that of your coworkers.

Trivia Question of the Month

When was first manufacturing facility set up by Interarch?

- 2000
- 1996
- 2005
- 2010

New Projects Wins

- Khairwaia International Limited, Uttar Pradesh
- Flavonite Technologies Pvt. Limited, Madhya Pradesh
- Mrs Bector Food Specialities, Punjab
- Emcure Pharmaceuticals Limited, Maharashtra
- Jolly Container Pvt. Limited, Maharashtra

Projects Completed

- Mahindra Aero structures Pvt. Limited, Karnataka
- Adig Jemtex Pvt. Limited, Rajasthan
- Havells India Limited, Uttar Pradesh
- Gold Laminates India Limited, Haryana
- Hi-Tech Satluj Motors Pvt. Limited, Himachal Pradesh

CSR at Interarch

Interarch celebrated National Safety Week at various ongoing sites in the country. Where in the week the importance of National Safety Week, various trainings on Unloading of Material, Work at height, Electrical Hazard etc. being held during the week. Different competitions like-Full Body Safety Harness Wearing Competition, safety quiz followed by the distributions of gifts and sweets were also the part of the program.

- North and East Region:**
- Hindustan Unilever Ltd at Punjab
 - Hindustan Unilever Ltd at Kolkata
 - Tata Panthagar
 - Indospace at Gurgaon
 - Sunsat Real Estate Services Pvt Ltd at Gurgaon
 - APL Apollo Tubes Ltd at Sikandrabad
 - JCB at Jaipur
- South Region:**
- SMCC Yamaha at Chennai
 - Hindustan Unilever Ltd at Pondicherry
 - BASF, Nellore (AP)
 - Orchid Printers, Verna, GOA
 - Tata, Dharwad
- West Region:**
- UTCL, Rawan
 - UTCL, Khor
 - Hamilton
 - Tata, Pimpri
 - Poddar Global Ltd., Raigarh, Maharashtra

Interarch organized safety awareness program in Panthagar conducted by M/S Karam Industries representatives. Main focus of this training was proper utilization of PPE & safety awareness during work.

Interarch conducted the celebration of EHS (Environment, Health & Safety) month at Hamilton, Gujarat on 28th February.
