Arvind Nanda
 Founder Director & CEO

Gautam Suri
 Founder Director & CTO

Dear Readers

We are overwhelmed with the response we have received for our new section "Know your Pre-Engineered Building". We give this platform to all our readers and customers for sharing knowledge on Pre-engineered buildings in India.

We look forward to your contribution for the same. Do write to us on info@interarchbuildings.com for feedback and queries.

Delivering Value: Interarch Product Portfolio

Interarch is India's leading Turnkey Pre-Engineered Metal Building Systems and Steel Construction Solution providers in India with experience of more than 30 years.

We offer following solutions:

1. Pre-Engineered Building Systems

- 1st company to introduce this technology in India in 2000
- Over 6000 buildings complete in India
- Early ROI- 40 % less time is required as compared to RCC
- Large Clear Span up to 100 M & variable heights up to 30 M possible

2. Tracdek Roof & Wall Cladding Systems

- 1st company to introduce this technology in India in 1995
- Long Life Span with guarantee of 20 years
- Yield Strength of 550 NPA with thickness of 0.47 mm to 0.58 mm
- 100 % water tight system
- UV & corrosion resistance is very high

3. Light Building Systems

- Ideal solution for Construction in Hilly & remote areas
- Dry wall construction without any hassle
- Minimum foundation is required.
- Fire Safe and Secure for Residence
- Assemble at location
- Ideal for Villas, 7 star Homes, Farm House, addition floors, Gd +2 Buildings
- Home can be built in 60 days

4. Turnkey Project Delivery

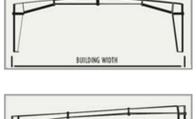

- Only Pre-Engineered steel company to provide turnkey
- solution for large & Complex Projects:
 - a) Designing & Manufacturing
 - b) Quality Check & Logistics
 - c) Erection of building
- Capable of supplying 1,20,000 MT of Steel annual
- Ability to complete the project under the strict safety and quality guidelines
- Interarch Projects operate with a team of 200 dedicated professionals working out of 50 locations all over India

Know your Interarch Pre-Engineered Buildings:PEB Framing systems by U. Sandhya Rani, Engineering & Design Department:

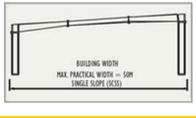

• **Tapered Column Clear Span (TCCS)** - It provides column-free interior space. It is ideal for auditoriums, gymnasiums, aircraft hangars, or places where large open space is required.

• **Single Slope Clear Span (SSCS)** - Available with straight or tapered columns. Provide single direction roof slope for rain water runoff control. It is often used for strip shopping centers and office complexes.

• **Tapered Column Multi Span (TCMS)** - Interior columns shorten the spans of the rafters, reducing the overall cost of the frame. Ideal for manufacturing and warehouse facilities

• **Tapered Column Multi gable (TCMG)** - It is best suitable for wide buildings when peak height due to roof slope is critical.

Value addition working with Interarch - Interarch's Stringent Safety Policies

At Interarch, we believe that good safety performance is an integral part of our business and we promise to take foremost account of the health and safety of our employees and erectors. We keep a safe environment while keeping maximum efficiency in all our operational areas.

We look at appropriate Personal Protective Equipment (PPE) as per the job to be used at site as a safety measure. These include:

1. Safety Shoes
2. Safety Helmets
3. Full Body Safety Harness
4. Hand Protection
5. Reflective Clothing
6. Eye & Face Protection
7. Respiratory Protection
8. Hearing Protection
9. We prohibit the use of match boxes or cigarette lighters or any inflammable products at the site
10. Smoking, Grinding, gas cutting, welding, working with naked flames, etc are strictly prohibited at the paint storage area and during the painting activity at site
11. Appropriate fire extinguishers/ sand buckets should be available at the storage area and at site

Project Spotlight: Insecticides India Limited in Gujarat.

Interarch is pioneer in Pre-Engineered Steel Construction Solution provider in India with integrated facilities for design, manufacture, logistics, supply and project execution capabilities for pre-engineered steel buildings delivered a project for Insecticides India Limited, Gujarat.

Project Name	Insecticides India Ltd
Project Location	Dahej, Gujarat
No of Buildings	4
Building Applications	Formulation unit, Raw material warehouse , A&M Insecticides plant
Area	4200 Sq. M + 4200 Sq. M +952 Sq. M
Height	7 M clear height under the knee.
Length	70 M
Width	60 M
Roof Panel	Tracdek Hi-Rib Bare Galvalume.
Wall Panel	Tracdek Wall SMP coated Galvalume
Features	<ul style="list-style-type: none"> • 3 nos. of framed openings on left side wall & 2nos. of framed openings on right side wall. • Parapet fascia at front end wall • Ridge vents provided • 2MM thick FRP day lighting panels. • No wall cladding considered in internal column. • Enclosed Building condition. • 1:10 Roof Slope • 6 nos of columns designed for 20 MT load to put mezzanine in future. • Parapet fascia at front end wall. • Mezzanine floor with total area with blanket load of 12.5 KN/ Sq. M & 7.20 KN / Sq. M respectively

New Project Win

- APL Apollo Tubes Limited, Tamil Nadu
- Perto India Pvt Ltd, Rajasthan
- JSW Steel Limited, Karnataka
- AMPO Valves India Pvt Ltd, Tamil Nadu
- Ultratech Cement Ltd, Rajasthan

Project Completed

- Hindustan Unilever Limited, Pondicherry
- Canpac Trends Private Limited, Dadar Nagar Haveli
- Hindustan Unilever Limited, West Bengal
- Indofil Industries Limited, Gujarat
- Ultratech Cement Limited, Chhattisgarh

Press Coverage

B2B Purchase Construction Week

Trivia Question of the Month: Nov'14

Which is the highest clear height building executed by Interarch?

- a) 25 M
- b) 33 M
- c) 31 M
- d) 35 M

Awards & Recognition

Interarch has been awarded certificate of appreciation from API Apollo Tubes Ltd. for achieving the goal of zero accident at site.

Training at Interarch

Interarch organized a training program at Kichha Plant for the operator's team.

Events at Interarch
