Interarch Expands Manufacturing Footprint; Commissions New Box Column Line in Uttarakhand and commissions Phase 2 of its Andhra Pradesh Unit for Pre- Engineered Steel Buildings

- *Company strengthens its PEB and multi-storey steel buildings capabilities; total capacity now exceeds 2,00,000 MT per annum.*
- *The new expansion buildings with box column line and downstream equipment has been set up at an investment of approx. Rs 21 crore*
- *The AP Phase 2 Commissioning makes Andhra Pradesh PEB plant fully Integrated PEB manufacturing unit. This adds another 25,000 MT per annum to the overall installed capacity which now exceeds a total of 200000 MT. This has come up with an investment of approx. 32 Crores.*

National, September 16, 2025

Interarch Building Solutions Limited (BSE: 544232 | NSE: INTERARCH), a leader in turnkey pre-engineered and Multi Storey steel buildings construction, today announced two major milestones in its manufacturing expansion journey: the commissioning of **Phase 2 of its Andhra Pradesh unit** dedicated to Pre-Engineered Buildings (PEBs), and the commissioning of a **new state-of-the-art Box Column Line at its Kichha facility in Uttarakhand**. These expansions are expected to create over 200 direct and indirect jobs, further boosting regional industrial growth. The total investment in both has been to the tune of Rs. 53 Crores.

Speaking on the occasion, **Arvind Nanda, Managing Director, Interarch Building Solutions Limited**, said: *“The commissioning of the second phase of our plant in Andhra Pradesh marks a proud and historic moment in Interarch’s journey. It Now makes AP plant our 4th fully integrated PEB plant in India. This reinforces our commitment to supporting India’s next wave of industrial growth in sectors like Renewables, Automobiles, Electronics, EV infra, and FMCG. With this facility, we are scaling capacity, creating employment, and strengthening our position as a leader in pre-engineered and Multi Storey/heavy steel structures.”*

Gautam Suri, Whole Time Director, Interarch Building Solutions Limited, added: *“The commissioning of the new Box Column Line at our Kichha plant is a strategic step towards expanding our capabilities and meeting the demands of India’s growing need for multi-storey / heavy steel buildings. The upgrade enhances our ability to deliver flexible, fast, and cost-effective solutions with reduced lead times, while maintaining the highest levels of quality and efficiency.”*

At **Athivaram Village in Nellore district, Andhra Pradesh**, The Phase 2 of the plant is having an installed capacity of **25,000 MT per annum** and has been set up with an approx. investment of Rs 32 crore. With this expansion, the Andhra Pradesh facility has evolved into a **fully integrated and complete PEB plant**. Strategically located near major industrial corridors and ports, the facility will cater to high-growth sectors such as Renewables, EV sector, Semiconductor manufacturing, e-commerce, warehousing, data centers, automotive and infrastructure projects across South and West of India.

At its **Kichha facility in Uttarakhand**, Interarch commissioned a **new Box Column Line**, particularly for multi storey buildings and expanding its annual installed production capacity by **15000 MT per annum from this unit**, backed by an investment of Rs 21 crore. The advanced line features automation and precision tooling to manufacture large-format box sections (up to 1500 x 1500 mm from 50 mm thick plates), known for their superior torsional strength, corrosion resistance, and versatility in high-rise and multi-storey steel buildings. This upgrade enhances Interarch's capabilities in delivering high-rise buildings, data centres and other large scale & complex steel structures.

With these two developments, Interarch has reaffirmed its commitment to **innovation, sustainability, and the Government of India's 'Make in India' vision**. The company now operates multiple state-of-the-art facilities with integrated design, engineering, and project management capabilities, serving diverse sectors.

About Interarch Building Solutions Limited

Interarch Pre- Pre-Engineered Buildings

Interarch Building Solutions Limited commenced its operations in 1983. Today, 40 years later, Interarch is one of the leading turnkey pre-engineered steel construction solution providers in India with integrated facilities for design and engineering, manufacturing, and on-site project management capabilities for the installation and erection of pre-engineered steel buildings.

TRACDEK® Metal Roofing & Cladding Systems

We manufacture world-class pre-engineered roofing and cladding systems designed to meet custom requirements. Our extensive portfolio includes the Hi-Rib Roofing & Cladding System, Klippon Roofing & Cladding System, and SS-2000 Standing Seam Roofing System. Each of these solutions is engineered to provide exceptional performance and durability, ensuring that we meet a wide range of needs with precision and reliability.

Trac® Ceilings

Our TRAC® range of metal ceilings are manufactured from fully recyclable materials and are pre-painted and prefabricated in our factory. The ceiling systems are friendly to handle and will not promote the growth of bacteria and fungi. TRAC® ceilings exhibit excellent corrosion resistance. They can withstand very high humidity (up to 100 %) and are suitable for use in outdoor applications.

Interarch Life: Non-Industrial Buildings

We offer a state-of-the-art solution for non-industrial buildings through our innovative load-bearing wall framing systems, crafted to support lightweight structures. Embracing a hassle-free drywall construction approach, these systems guarantee swift and efficient assembly, simplifying the construction process for our esteemed clients. With a focus on durability and safety, our load-
