12. A limited assurance engagement includes performing procedures to obtain sufficient appropriate evidence that vary in nature, timing and extent from a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had we performed a reasonable assurance engagement.  - b. Obtained list of KPIs and explanation from the management and compared the specific components of the KPIs as mentioned in the Statement to the source of the KPIs as maintained by the management of the Company, which includes books of account, financial and accounting records, and Restated Financial Information maintained by the Company as described in the paragraph 7 above;

However, in cases of any changes to any of the information/confirmations contained in this report are made available to us in writing by the management, we undertake to communicate, in writing, changes in this report to the Company until the Equity Shares allotted in the Offer commence trading on the Stock Exchanges. In the absence of any such communication from us till the Equity Shares commence trading on the Stock Exchanges, you may assume that there is no change in respect of the matters covered in this report.
14. We have no responsibility for identification, definition, completeness, relevance, appropriateness and sufficiency of the KPIs included in the Statement.
15. The procedures we have performed do not constitute an audit or review made in accordance with generally accepted auditing standards. Furthermore, they will not necessarily reveal matters of significance with respect to any material misstatement of the information related to KPIs of the Company.

Inherent Limitations:

16. Our work and conclusion shall not in any way constitute advice or recommendations (and we accept no liability in relation to any advice or recommendations) regarding any commercial decisions associated with the Offer, including, in particular, but without limitation, any which may be taken by the Company or book running lead managers and syndicate members appointed for the Offer in the capacity of an investor or in providing investment advice to their clients or the Company.

17. We, however, state that this is not an assurance as to the future viability of the Company or whether the KPIs have been considered / have a bearing for arriving at the basis for Offer price. We further state that our reporting is based on the facts up to the date of this report and we neither give any guarantee nor any assurance that the KPIs reported will continue to perform and/or report in similar manner in future. It should be noted that the KPIs contained in the Statement may not be measures of operating performance or liquidity defined by generally accepted accounting principles. We make no comment about the Company's definition, methodology or presentation of the KPIs in the Statement or its usefulness for any purposes.
18. The KPIs and explanation included in the Statement should not be considered in isolation from, or as a substitute for, analysis of Company's historical financial performance, as reported and presented in the Restated Financial Information of the Company included in the Offer Documents. These KPIs (other than GAAP measures) are not defined in the Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013, are not presented in accordance with Ind AS and have limitations. These KPIs may differ from similarly titled information used by certain peer companies, who may calculate such information differently and hence their comparability with the measures used by the Company may be limited. Therefore, such KPIs should not be viewed as substitutes for measures of performance under Ind AS or as indicators of Company's financial position, financial performance or its cash flows.

Conclusion

19. Based on the procedures performed by us, as mentioned above, and the information and explanations given to us, nothing has come to our attention that causes us to believe that (i) the financial details provided in the Statement are not in agreement with the Restated Financial Information as at and for the financial years ended March 31, 2024, 2023 and 2022, and/or the underlying books of account and other financial and accounting records maintained by the Company used for the purpose of preparation of the Restated Financial Information, as applicable; (ii) non-financial measures provided in the Statement are not in agreement with the books of accounts and other relevant records maintained by the Company; or that (ii) the KPIs included in the Statement are not mathematically accurate.
