Subject: Intimation under Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 regarding, Interarch secures INR 221 Crore orders in Revolutionary Semiconductor & Lithium-Ion Battery Sector, from Tata Projects Limited, Transforming India’s Tech Landscape.

Dear Sir/Ma’am,

Pursuant to Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements), Regulations 2015 read with Part B of Schedule III thereof, we are pleased to inform you that the Interarch secures INR 221 Crore orders in Revolutionary Semiconductor & Lithium-Ion Battery Sector, from Tata Projects Limited, Transforming India’s Tech Landscape.

We are also enclosing the copy of press release for your information and records.

Thanking You,

For INTERARCH BUILDING PRODUCTS LIMITED

**ARVIND NANDA
MANAGING DIRECTOR

Interarch secures INR 221 Crore orders in Revolutionary Semiconductor & Lithium-Ion Battery Sector, from Tata Projects Limited, Transforming India's Tech Landscape.

- *The Tata Semiconductor order is for their Semiconductor manufacturing facility in Assam.*
- *The Agratas Energy Storage Solutions order is for India's largest lithium-ion battery manufacturing unit in Gujarat.*

New Delhi, January 12, 2025

Interarch Building Products Limited (BSE Code: 544232) (NSE: INTERARCH), a leading player in the Pre-Engineered Building (PEB) industry, today announced **two major project wins**, further solidifying its position as a trusted partner in delivering world-class infrastructure solutions for emerging industries.

The first order is for **TATA Semiconductor Assembly & Testing Pvt Limited**, for their semiconductor manufacturing facility in Jagiroad, Morigaon, Assam. This project is a key initiative in India's growing semiconductor ecosystem, aligned with the government's vision to boost domestic electronics manufacturing.

The second order is for **Agratas Energy Storage Solutions Pvt. Ltd.**, for the construction of **India's largest lithium-ion battery manufacturing unit, is in Sanand, Gujarat**. The facility will cater to the rapidly growing energy storage market, supporting India's transition to sustainable energy solutions. This is Interarch's second lithium-ion battery manufacturing order, after EXIDE ENERGY SOLUTIONS.

In both these projects, TATA Projects Limited is the EPC contractor.

Interarch has been a trendsetter in the industry. From introducing PEB to pioneering standing seam profiles, the company has consistently led innovation in building technologies. Now, Interarch is also paving the way in new-age sectors, bringing its engineering solutions to emerging industries and reinforcing its leadership in providing modern, sustainable infrastructure for the future.

Speaking on the development, Mr. Arvind Nanda, Managing Director, Interarch Building Products Ltd., said:

"We are proud to partner with Tata Projects Limited on these transformative initiatives. The semiconductor and energy storage sectors are pivotal to India's economic and technological future. Our flexible and industry-agnostic infrastructure solutions ensure efficiency, reliability, and sustainability in every project we undertake. These collaborations further reflect our commitment to driving innovation and growth across new-age industries."

info@interarchbuildings.com www.interarchbuildings.com

Interarch has engineered, designed, manufactured, and erected large projects for leading brands and emerging sectors such as data centres, renewable energy, and semiconductors. Interarch has built notable partnerships, delivering innovative infrastructure solutions across a wide range of industries.

About Interarch Building Products Limited

Interarch Pre- Pre-Engineered Buildings

Interarch Building Products Limited commenced its operations in 1983. Today, 40 years later, Interarch is one of the leading turnkey pre-engineered steel construction solution providers in India with integrated facilities for design and engineering, manufacturing, and on-site project management capabilities for the installation and erection of pre-engineered steel buildings.

TRACDEK® Metal Roofing & Cladding Systems

We manufacture world-class pre-engineered roofing and cladding systems designed to meet custom requirements. Our extensive portfolio includes the Hi-Rib Roofing & Cladding System, Klippon Roofing & Cladding System, and SS-2000 Standing Seam Roofing System. Each of these solutions is engineered to provide exceptional performance and durability, ensuring that we meet a wide range of needs with precision and reliability.

Trac® Ceilings

Our TRAC® range of metal ceilings are manufactured from fully recyclable materials and are pre-painted and prefabricated in our factory. The ceiling systems are friendly to handle and will not promote the growth of bacteria and fungi. TRAC® ceilings exhibit excellent corrosion resistance. They can withstand very high humidity (up to 100 %) and are suitable for use in outdoor applications.

Interarch Life: Non-Industrial Buildings

We offer a state-of-the-art solution for non-industrial buildings through our innovative load-bearing wall framing systems, crafted to support lightweight structures. Embracing a hassle-free drywall construction approach, these systems guarantee swift and efficient assembly, simplifying the construction process for our esteemed clients. With a focus on durability and safety, our load-bearing wall framing systems are engineered to be earthquake and termite-proof, providing robust protection for the structure and its occupants.

Moreover, these systems offer the flexibility of dismantling if required, providing adaptability for future changes or modifications. These structures can be custom-made according to the specific plans, accommodating varying shapes, sizes, and designs to meet the exact needs of customers.
