**Speaking on the announcement, Mr. Arvind Nanda, Managing Director, Interarch Building Products Limited said,** "We are thrilled with our robust performance in the first half of FY25, securing orders worth INR 634 CR. This milestone underscores our ability to deliver high-quality pre-engineered building solutions across a wide range of sectors, including Automotive, Renewables, and Semiconductors. We are committed to building on

this momentum, continuing to expand into new sectors, and providing value-driven solutions for all our customers and stakeholders.”

## **About Interarch Building Products Limited**

### **Interarch Pre-Engineered Buildings**

Interarch Building Products Limited commenced its operations in 1983. Today, 40 years later, Interarch is one of the leading turnkey pre-engineered steel construction solution providers in India with integrated facilities for design and engineering, manufacturing, on-site project management capabilities for the installation and erection of pre-engineered steel buildings.

### **TRACDEK® Metal Roofing & Cladding Systems**

We manufacture world-class pre-engineered roofing and cladding systems designed to meet custom requirements. Our extensive portfolio includes Hi-Rib Roofing & Cladding System, Klippon Roofing & Cladding System, and S-2000 Standing Seam Roofing System. Each of these solutions is engineered to provide exceptional performance and durability, ensuring that we meet a wide range of needs with precision and reliability.

### **Trac® Ceilings**

Our TRAC® range of metal ceilings are manufactured from fully recyclable materials and are prepainted and prefabricated in our factory. The ceiling systems are friendly to handle and will not promote the growth of bacteria and fungi. TRAC® ceilings exhibit excellent corrosion resistance. They can withstand very high humidity (up to 100 %) and are suitable for use in outdoor applications.

### **Interarch Life: Non-Industrial Buildings**

We offer a state-of-the-art solution for non-industrial buildings through our innovative load-bearing wall framing systems, crafted to support lightweight structures. Embracing a hassle-free drywall construction approach, these systems guarantee swift and efficient assembly, simplifying the construction process for our esteemed clients. With a focus on durability and safety, our loadbearing wall framing systems are engineered to be earthquake and termite-proof, providing robust protection for the structure and its occupants.

Moreover, these systems offer the flexibility of dismantling if required, providing adaptability for future changes or modifications. These structures can be custom-made according to the specific plans, accommodating varying shapes, sizes, and designs to meet the exact needs of customers.
